Concept

we believe every home deserves a piece of magic something with a story to tell. Inspired by the legendary Greek hunter Orion, our logo reflects both strength and beauty, just like the timeless charm of ancient Greece.

The figure in our logo isn't just a symbol — it's shaped by the stars, inspired by the famous Orion constellation that has guided people for centuries.

Even the font we chose carries meaning — it draws from ancient Greek letters, with sharp lines and soft curves, reminding us of the art, architecture Greece is known for.

Just like the Greeks, who mastered art and details, elegance, history, and heart pieces that don't just fill a space, but bring it to life.
